

C1200

12" Hydraulic Squeeze Off Tool

Footage

The model C1200 Hydraulic Squeeze Off Tool is designed to squeeze 8" to 12" MDPE and HDPE pipe safely and effectively.

The C1200 features 8-sided, positive locking, indexable gauge plates, aircraft grade aluminum squeeze bars, chrome plated steel side shafts and a 10,000 PSI hydraulic system with quick connect fittings. This CNC machined tool contains no welded parts and exerts 150 tons of squeezing force.

The unique lock-in / swing-out bottom bar design allows for quick and easy access to the pipe, even in confined spaces, and the lock down bolts ensure that a squeeze is maintained even if the hydraulics are disconnected. The C1200 also incorporates an efficient dog bone design on the jaws to obtain maximum flow control, while requiring minimal force to squeeze the pipe.

The Power Team air / hydraulic pump features a foot operated mechanism and pressure gauge for ease of use. These pumps also incorporate a needle valve to control the release operation to avoid damage to the pipe, and one pump can be used for two tools. All hoses supplied are 2-ply, 1/4" I.D. reinforced with two braids of high tensile steel wire and have a 20,000 PSI burst rating with an oil and weather resistant rubber coating.

The C1200 also offers an optional grounding spike and custom gauge plates are available upon request.

Standard Gauge Plate Settings

Size	SDR	Size	SDR
8"	9	12"	9
8"	11 & 11.5	12"	11
8"	13.5	12"	11.5
10"	11 & 11.5	12"	13.5
10"	13.5	12"	15.5
10"	15.5		

Weight	Squeeze Capacity	Height	Width
525 lbs (238kg)	8" - 12"	37" / 51"	34"
