

C400

The Model **C400** Gear Operated Squeeze Off Tool is designed to squeeze 2" to 6" PE pipe and is a cost effective alternative to hydraulic systems.

The **C400** incorporates all the features of our manual models, plus a unique worm gear drive, providing superior power delivery for larger diameter pipes. This tool features 6-sided, positive locking, indexable gauge plates, aircraft grade aluminum squeeze bars, chrome plated steel side shafts and a coated feed screw, reducing corrosion and friction.

The **C400** is operated with a straight ratchet wrench on the integral hex at the top of the feed screw and the front reduction drive. The Unique swing-out/ lock-in bottom bar design allows for quick and easy access to the pipe even in confined spaces and the stabilizing bar provides added stability during the squeeze process.

The **C400** also includes a standard static grounding spike, and custom gauge plates are available upon request.

For **2"** to **6"** PE & HDPE Pipe
50lbs / Height 20" / Width 13.5"
Worm Gear Operated
ASTM Approved
