

# C177

The model **C177** Hydraulic Squeeze Off Tool is designed to squeeze 1-1/4" to 4" MDPE and HDPE pipe safely and effectively.

The **C177** features 6-sided, positive locking, indexable gauge plates, aircraft grade aluminum squeeze bars, and an easy access hydraulic connector for when the tool is in the pit.

The unique lock-in / swing-out bottom bar design allows for quick and easy access to the pipe, even in confined spaces, and the lock down bolts ensure that a squeeze is maintained even if the hydraulics are disconnected.

The **C177** also includes a standard grounding spike, and custom gauge plates are available upon request.
